Other Information:	Avoid unintended release into the environment
Approved Handler:	Not required
Tracking:	Not required
Record Keeping:	Not required

Section 8: Exposure Control/Personal Protection

Exposure Limits:	No value assigned for this specific product by EPA or NZ Department of Labour Health and Safety. Workplace Exposure Standards for particulates not otherwise classified: Inhalable Time Weighted Average (TWA): 10 mg/m ³ Respirable dust Time Weighted Average (TWA): 3 mg/m ³ Total Exposure Limit (TEL): Not assigned
Engineering Controls:	Use only in a well ventilated area. Avoid generation and inhalation of dust. Keep packaging closed when not in use.
Protective Equipment:	Respiratory Protection: Ensure adequate ventilation at all times. Avoid breathing dust. If required wear a suitable mask or particulate respirator according to AS/NZS 1715/1716. Skin Protection: Avoid direct contact with skin. Always wear appropriate gloves such as nitrile gloves or those specified in AS/NZS 2161 and wash hands, arms and any skin which may have come into contact with the product with soap and water immediately after use and particularly before eating, drinking or smoking. Wash any contaminated clothing or other protective equipment before storing or reusing. Eye Protection: Avoid contact with eyes. If there is a risk of dust exposure wear dust resistant eye protection as specified in AS/NZS 1336 and ensure that the media is damp to reduce generation of dust.

Section 9: Physical And Chemical Properties

Appearance:	Purple, blue and green/yellow prills
Odour:	No specific odour
Bulk Density:	1000 – 1100 kg/m ³
pH:	4.5 – 5.0
Solubility in Water:	Some solubility in water
Freezing Point:	No data available
Vapour Pressure:	No data available
Vapour Density:	No data available
Boiling Point:	No data available

Section 10: Stability And Reactivity

Stability:	Product is stable under normal conditions of use.
Conditions to Avoid:	Avoid contact with foodstuffs, hands, eyes and face. Avoid inhalation of dust. Avoid contact with other chemicals. Avoid excessive heat, ignition sources and open flames.
Incompatible Materials:	Incompatible with strong oxidizing agents and sulphur, chlorites, chloride, chlorates, Hypochlorites, acid or alkaline reacting substances, flammable oxidizable substances, nitrites, metallic salts, metallic powder, herbicide, chlorinated hydrocarbons or organic compounds.
Hazardous Decomposition Products:	Carbon oxides. Phosphorus oxides. Ammonia. Nitrogen oxides.

Section 11: Toxicological Information

No adverse health effects should occur in the product is handled in accordance with this Safety Data Sheet and the recommendations made on the packaging.

Ingestion:	Ingesting large amounts of the product may cause nausea and vomiting and lead to abdominal discomfort and increased risk of gastrointestinal issues.
Skin:	Contact with skin may lead to skin irritation and in sensitive people may lead to dermatitis.
Inhalation:	Inhalation of the product may irritate or aggravate pre existing conditions such as hayfever or asthma. Inhalation may also lead in irritation or inflammation of the nose, throat or lungs.
Eye:	An irritant. May cause redness or watering of the eye and lead to irritation or infection.
Toxicity data:	Calculated Acute oral toxicity LD50 (Rat): 4400 mg/kg

Section 12: Ecological Information

Ecotoxicity:	Contain the media and avoid unintended release into streams, groundwater and waterways.
Persistence:	No data available
Degradability:	No data available
Mobility:	No data available
Bio-accumulation	No data available
Other Adverse effects:	No data available

Section 13: Disposal Information

Product Disposal:	Observe any local authority, national and regional restrictions that may apply. Dispose of the product according to these observances. Dispose of the empty packaging by placing into the domestic rubbish or according to local authority instructions.
--------------------------	--

Section 14: Transport Information

Transport requirements:	Protect from extreme heat, moisture and strong acids or oxidizing agents.
Road and Rail Transport:	Not classified as a Dangerous Good under NZ5433:2012 Transport of Dangerous Goods on Land.
Air Transport:	Not classified as a Dangerous Good by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulation for transport by air: Non Dangerous Goods.
Marine Transport:	Not Classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG) for transport by sea. Non Dangerous Goods.

Section 15: Regulatory Information

EPA New Zealand Approval Code:

Based on available information, classified as a Fertiliser (Subsidiary Hazard) Group Standard HSR002571 according to the Hazardous Substances and New Organisms Act 1996.
