

Children will enjoy learning all the parts of a sunflower with a REAL sunflower.

### What you need:

-  Sunflower
-  Tweezers (for older children)

### Step one

First, explain the basic parts of a sunflower i.e. petal, stem, blossom & leaf.

### Step two

Have an adult cut the sunflower in half. Talk about what you see.

### Step three

Young children can use fingers to explore and pull apart the sunflower. Older children can use tweezers to take sunflower apart.

### Step four

Use diagram below to go through the different parts of a sunflower.

Don't forget to send us a photo of your creation!
