

What you need:

-  Paper cups
-  Scissors
-  Paint
-  Paint brushes
-  Pipe cleaners
-  Glue or tape

Step one

Make 6 equal cuts around a paper cup leaving about a 1/2 inch at the bottom of the cup.

Step two

Fan out each cut section as shown, then poke a hole in the center of the cup.

Step three

Paint your flowers in the colours of your choice.

Step four

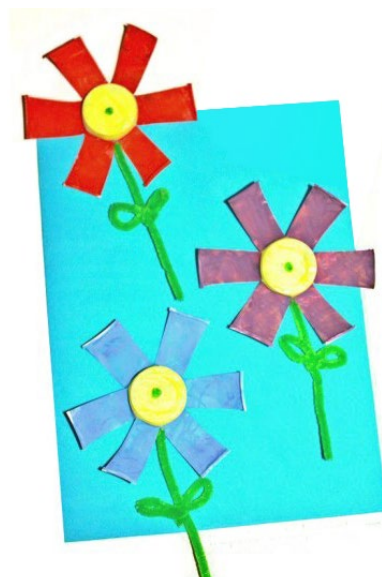

Cut a pipe cleaner in half. Poke one half through the center of your flower, bend at the end slightly and glue or tape to the back side of the flower.

Step five

Use the pipe cleaner half to form leaves around the stem.

Step six

For an added effect, poke the stem through another cup to form a holder for your flower.

Don't forget to send us a photo of your creation!
