

Matching Sunflower Parts

Learning Activity

This is a wonderful flower matching game and great way to re-enforce the parts of a plant.

Flower

Leaves

Stem

Roots

What you need:

Scissors

Step one

Print off the sheet below and cut out individual cards.

Step two

Shuffle the cards on the table.

Step three

Encourage children to figure out which name matches which part of the flower.

For preschoolers:

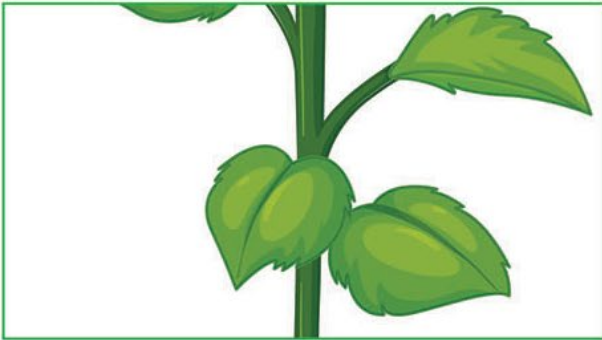

This would need to be a small group activity instead of an individual activity so that reading help could be given to the child.

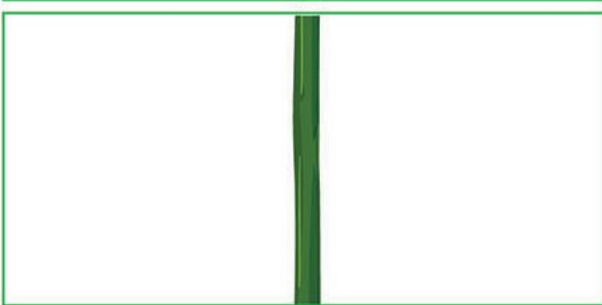

Don't forget to send us a photo of your creation!
Upload it via our website or email it to sunflowers@daltons.co.nz
