

What you need:

-  Paper plates
-  Paints
-  Paint brushes
-  Card for petal template
Yellow paper
-  Scissors
-  Glue (PVA or hot glue gun)

Step one

Make a petal template out of a piece of card, to trace around multiple times onto yellow paper.

Then cut out the yellow petals.

(The teacher may want to do this while the children work on their paper plates).

Step two

Get the children to paint their paper plate however they choose to.

Step three

When the painted plates are dry use glue to paste the yellow petal cutouts around the outside of the finished plate.

Don't forget to send us a photo of your creation!
