

Parts of a sunflower

Learning Activity

A cut and paste activity teaching kindy kids the parts of a sunflower.

What you need:

-  Paper
-  Scissors
-  Glue
-  Parts of a Sunflower worksheet
-  Crayons/coloured pencils/pens

Step one

Print out each child a 'Parts of a Sunflower' worksheet from the following page and get them to name it.

Step two

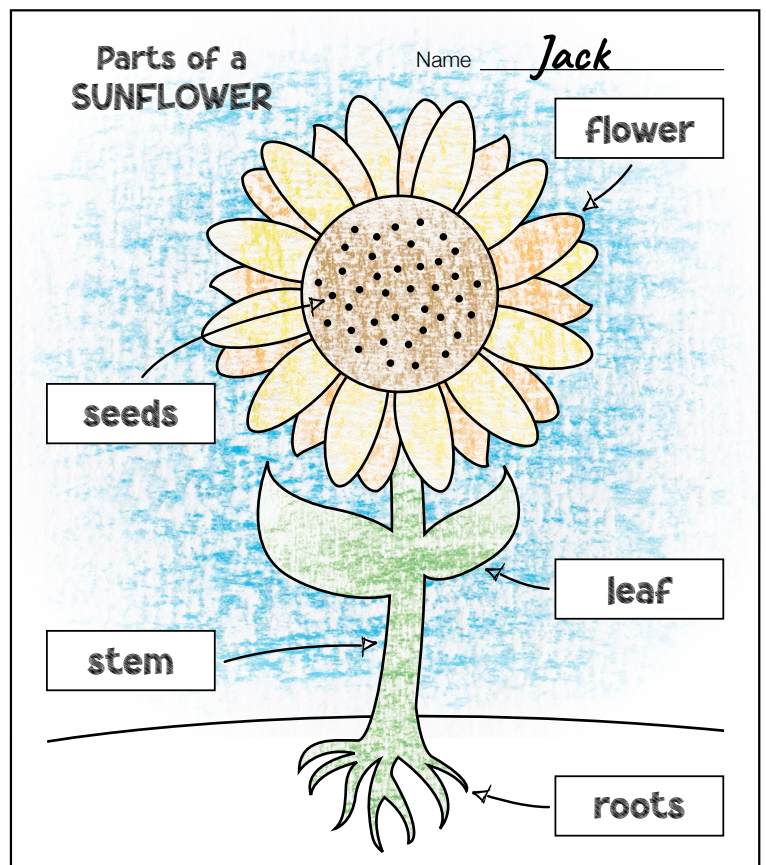

Get the children to cut off the bottom of the worksheet on the dotted line and then cut out the part labels.

Step three

Ask the children to glue the labels to the appropriate grey boxes that have arrows pointing to the different parts. You may want to check them before gluing.

Step four

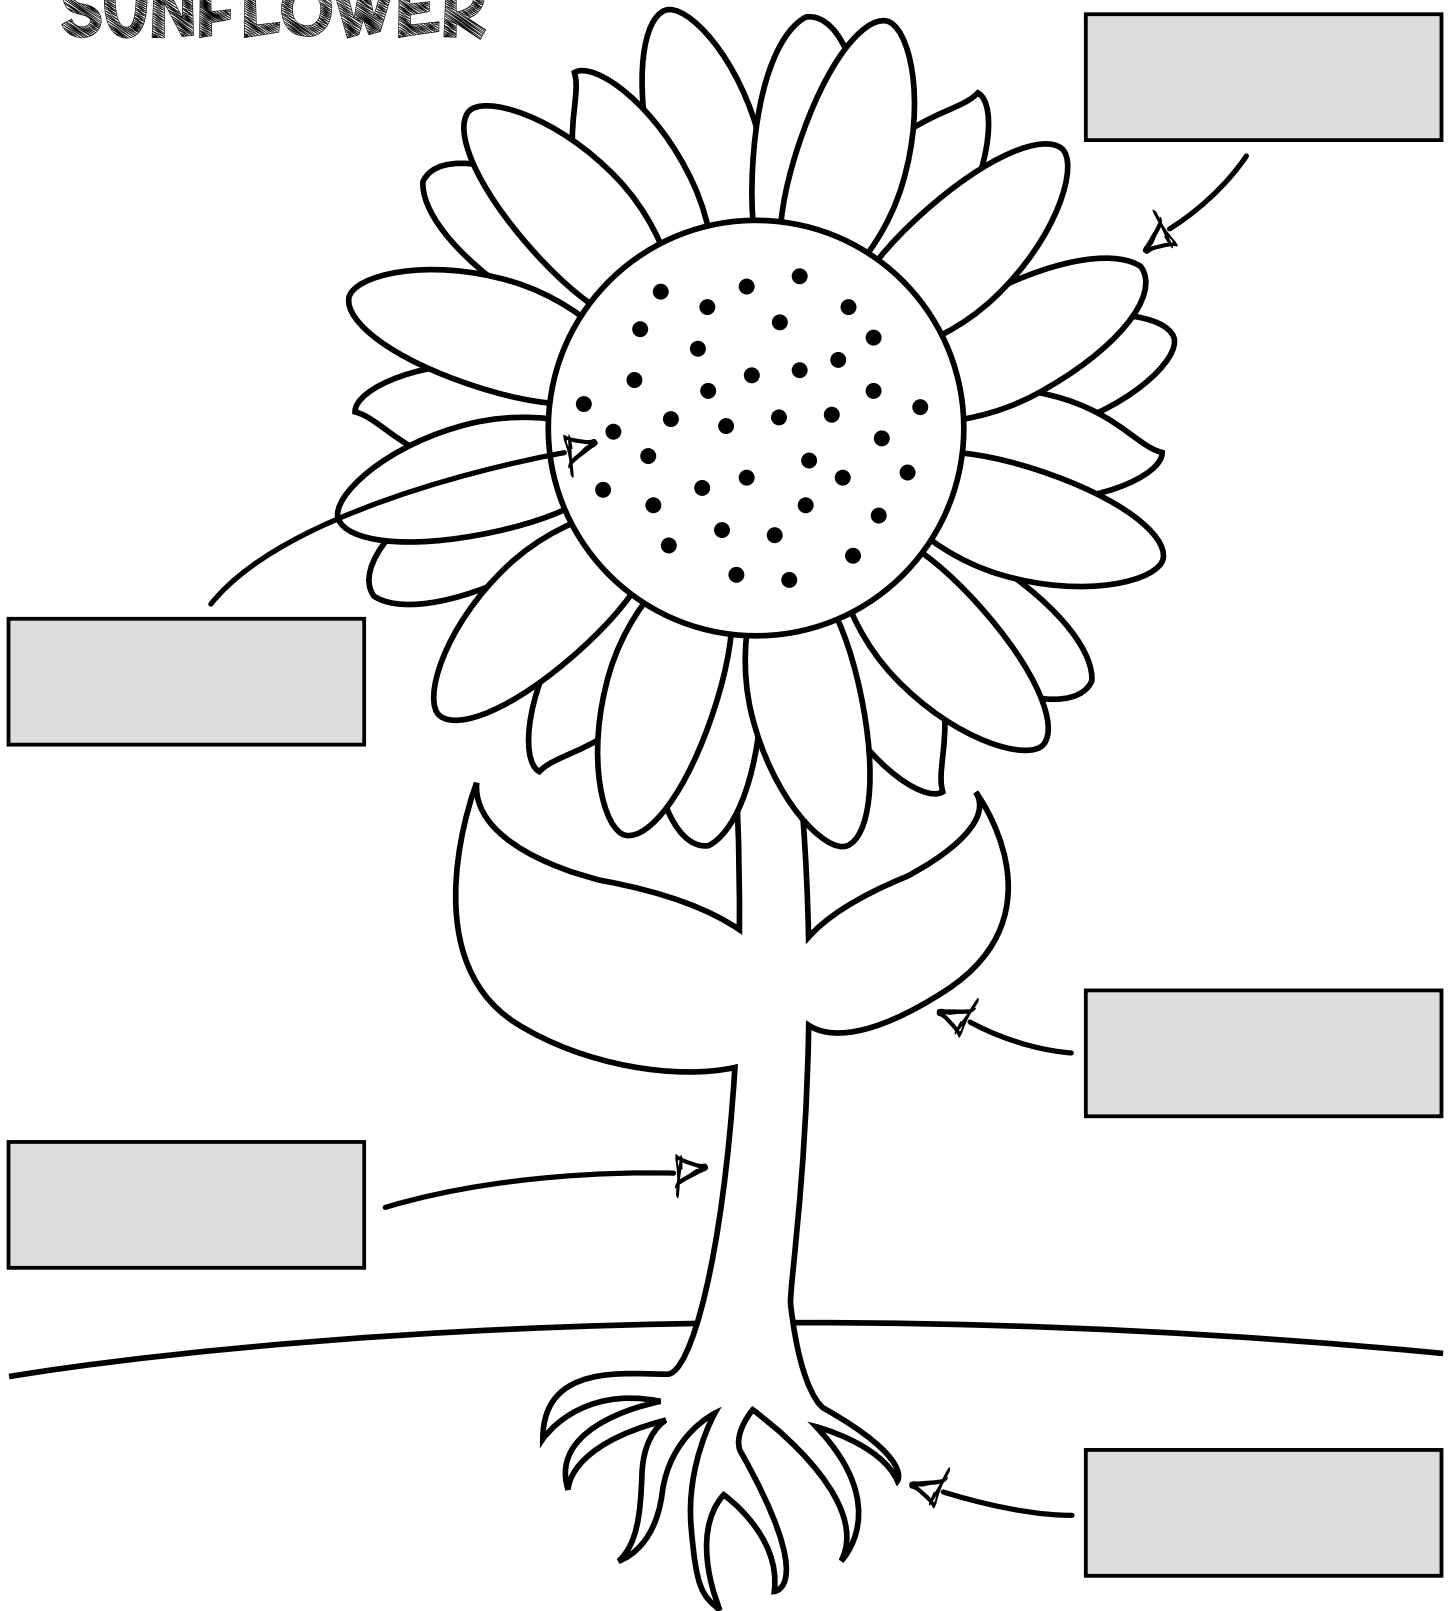

The children can then colour in the image.

Don't forget to send us a photo of your creation!
Upload it via our website or email it to sunflowers@daltons.co.nz
