

This is a simple activity to help kids practice counting and number recognition.

What you need:

-  Sunflower Seeds
-  Numbered Sunflower printables (on next two pages)

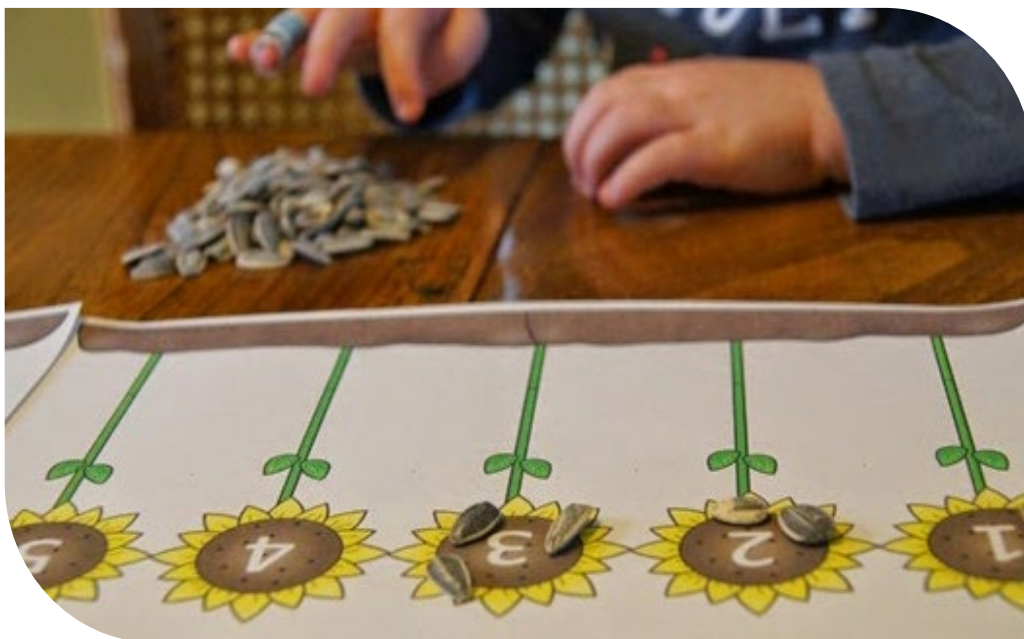

Step one

Print out the numbered sunflower pages and grab some sunflower seeds.

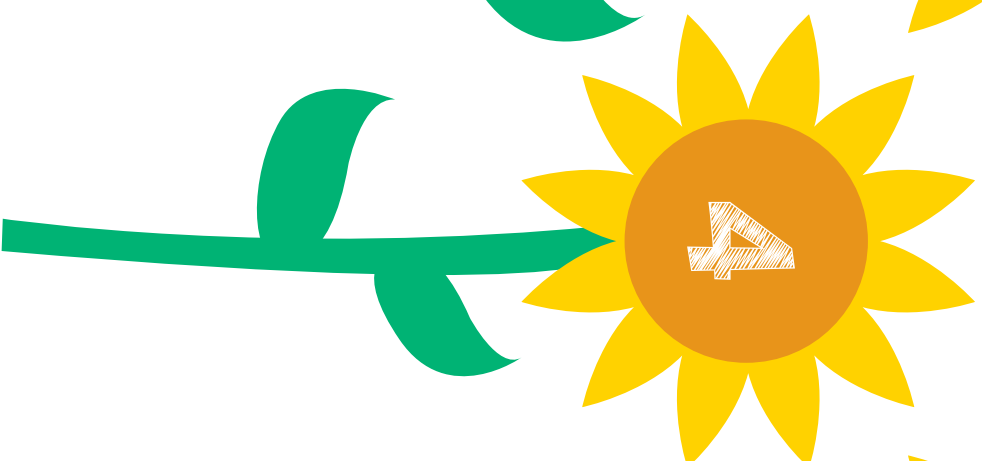

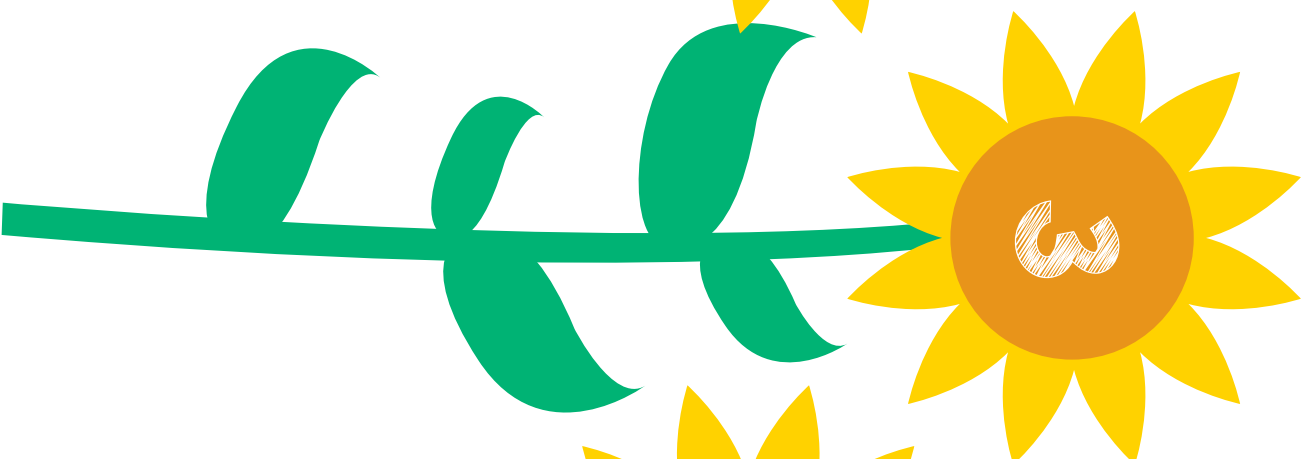

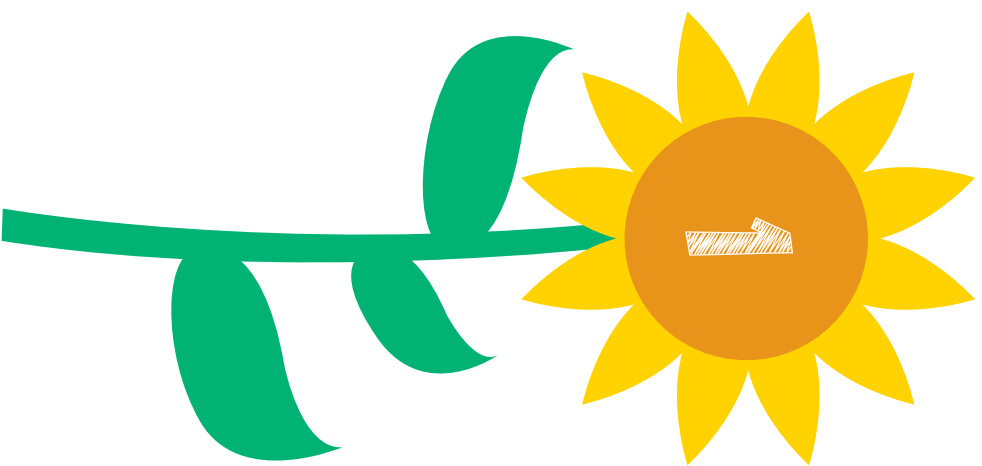

Step two

Get the kids to count out the correct number of sunflower seeds and put them in the center of the flower or up the stem.

Don't forget to send us a photo of your creation!
Upload it via our website or email it to sunflowers@daltons.co.nz
