

A fun and educational indoor activity that works on counting and fine motor skills.

### What you need:

-  Paper plate
-  Orange paint
-  Paint brush
-  Scissors
-  Hole punch (single)
-  Brown ribbon, yarn or shoe lace (40cm)
-  Cellotape

### Step one

Take the paper plate and cut little "v" shapes around the outside of it to make it look like a sunflower.

### Step two

Use hole puncher to make holes in the center in a spiral pattern.

### Step three

Paint your sunflower!

### Step four

While waiting for the sunflower to dry, use the cellotape to tape up one end of the ribbon or yarn to make a point. Knot the opposite end.

### Step five

Start weaving!

**Don't forget to send us a photo of your creation!**
